

Reto J. Kollbrunner

Senior Project Manager

« Complicated technology must be combined with simple handling.
Not the other way around. » Hermann Simon

About Reto

Reto has many years of practical experience in the organization, planning and implementation of IT and ERP projects, primarily in the national and international industrial environment. In the area of ERP/ CAD/CAM/BDE and ICT he also successfully managed departments in medium and large SMEs.

Reto has a technological background which he expanded academically through a MAS in Business Engineering and a green IT CAS at the Lucerne University of Applied Sciences and Arts. He loves technologically / organizationally demanding challenges in which he can profitably apply his broad know-how.
